Trituration Workshops

Take a weekend to fully explore a substance, old or new. Find out for yourself the depth and quality of information that is revealed when people gather together to journey into a substance via trituration. This is the shamanic/intuitive path of Homeopathy; a perfect counterpoint to the often very heady type of study required in most schools. You will develop yourself as a practitioner by improving your own way of knowing and seeing remedies and by gaining better access to the C4 realm. In addition, we will introduce you to Family Constellation work, a powerful therapeutic tool that can lead you into the heart of the conflict in a case in a very short time, improving prescribing accuracy. Led by Anneke and Judy. See website for upcoming events or we can travel to your study group's location.
