GIFTS FROM THE MOTHER

ALIZE TIMMERMAN, LAKE TAHOE

OCTOBER 14 - 17, 2010

Join us for a four day residential seminar with Alize Timmerman at the shores of beautiful Lake Tahoe in California. Fall foliage and autumn breezes will set the stage for a journey through the remedies made from human substances.

This journey shows many stages of development at physical, psychological, spiritual and social levels. Alize helped to develop and research these remedies with colleagues from around the world. Starting in 1998 provings and triturations have been made from DNA, Lac humanum feminine, Lac humanum masculine, Folliculinum, Carcinosinum, Amniotic Fluid, Placenta Feminine, Oxytocin, Umbilical cord, Vernix and Menstrual Blood.

These remedies are of particularly great use in cases of emotional and/or physical trauma. They help to:

- Repair suppressed memories.
- Restore self worth.
- Connect us with our universal vitality.
- Make us remember our unique identity.
- Reconnect us with our purpose.

Alize Timmerman has achieved excellent results with these human substances. These remedies not only have the vitality and energy to grow a baby, they can also heal certain forms of cancer. Some cancer cases will be taught, and Alize will also share some children and family cases where these remedies have proven their effectiveness. Alize will give an overview of these remedies and do differentiations and comparisons with other remedies.

There will be a trituration from a substance connected to this group of remedies. Doing a trituration helps us to better understand the 'laws' of

healing. Alize is a very practical speaker and gives her students a deep understanding of what 'curing and healing' really means. She shows us how we can observe healing and how it takes place. She also explains how to treat chronic diseases and why. She gives good information on how and when a patient needs a miasmatic remedy, or when a mineral, plant or animal remedy might be better. The student will learn clarity around when they may need to use more remedies than one to affect a cure.

NOTE: This is a professional level seminar, however Alize Timmerman is a gifted teacher. She is personable, knowledgeable and makes difficult subjects and concepts easy for anyone to understand.
